

VAHID SHOES

www.vahidshoes.com

Doing a sale is just the start of a lasting commitment.

Using state-of-the-art equipment and boasting top quality and valuable experience in manufacturing sports shoes outsoles, sports shoes, and walking shoes, Vahid Shoe Company invites you to look at its products.

About Us

Founded in 2015, Vahid Shoe Company started with a production capacity of 1000 pairs per day. Genuine raw materials deliver the exceptional quality of Vahid shoes.

1. Outsole materials come in two types: Ethyl Vinyl Acetate (EVA) and Poly Urethane (PU).
2. Dense rubber in EVA materials make the outsole resistant to abrasion and cracks.
3. These outsoles are light and durable.
4. Fully elastic intersia upper material with two layers of thermoplastic polyurethane (TPU) threads, which can be washed by hand or machine without a shape change.
5. A wide range of products for children, women, and men in different colors.
6. Orders are based on the customer's preferences, with no restrictions.
